

994 Hydra - Miniature IML Pinning System

Product Code: 994-HYDRA

The 994 HYDRA is a miniaturised in-mould labelling pinning system. It is especially useful on applications where small items are being moulded. For example, yoghurt pots and drinks containers can be of a small diameter and require the pinning heads to be small also.

The standard system comprises a Resistively Coupled Distributor with either four or six pinner cables. It has a mounting footprint of 50mm x 86mm. The resistive coupling of the distributor controls arcing and provides independent operation of the pinning heads

Features

Benefits

Miniature pinning head (5 x 15mm)	Fits small mould tools
Resistive coupling	Smooth, spark-free pinning. Independent operation of each pin.
Small distributor housing	Easily mounted on tool

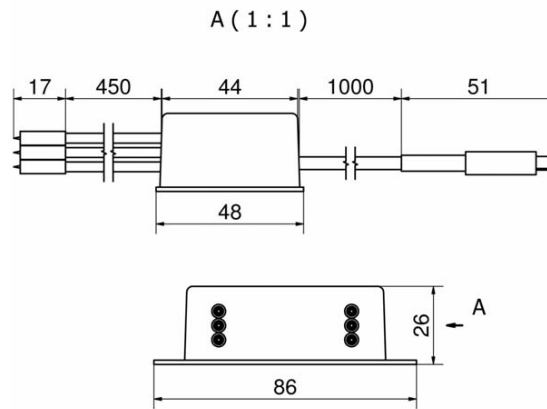

Technical Characteristics

Dimensions	Pinning Head 5mm dia x 15mm
Dimensions	Distributor 50mm x 86mm
Weight	175g
Construction	Pinning Head - PTFE Distributor - ABS Splitter - PVC
Maximum operating temperature	Pinning Head - 105°C Distributor - 90°C Splitter - 65°C
Power source	994 IML Generator
HT Cable	Pinning Head - 450mm Distributor - 1000mm
Operating voltage	Up to 20kV
